Preface

In June 2016, PILDAT took a first-of-its-kind initiative to assess the performance of the elected leadership of the Senate of Pakistan, traditionally considered the upper house of the parliament. The performance of individual Senators during the Thirteenth Parliamentary Year of Senate (March 12, 2015 to March 11, 2016) was carried out using an indigenous but scientific framework. After the release of this report, many thinkers and political experts proposed to us to undertake a similar exercise for the **Members of the National Assembly of Pakistan (MNA)**. Hence, we decided to take this task up with the overall objective of fostering transparency and greater democratic accountability in the country and to help in the mapping exercise for the future political leadership of Pakistan.

The methodology and framework of assessing the performance of **308 MNAs** out of a total strength of 339 (at the time of data collection) was developed indigenously. The Prime Minister, Speaker and Deputy Speaker of the National Assembly, Federal Ministers, Ministers of State and Leaders of the House and Opposition have not been included in the assessment exercise because their responsibilities and functions are significantly different from a legislator who does not hold any of this position. The data for preparing the Score Cards was obtained from one main public source: The official website of the National Assembly of Pakistan. MNAs themselves were also contacted to provide their data. The assessment criteria and framework were seriously constrained by the availability of data. Many parameters such as the Talk Time in the plenary sittings and attendance in the parliamentary committee meetings could not be included in our assessment framework as no data was available on the Assembly website and the Assembly secretariat was non-responsive to the specific requests made for the data. Despite these limitations, we think a reasonable beginning has been made to build on in the future.

We hope that this report and the discourse it generates will contribute to empowering political leadership in Pakistan. This is a first attempt made by PILDAT to assess and rank the performance of individual MNAs, and hence, may have quite a bit of room for improvement. We will welcome comments and suggestions for improvement in the concept, methodology and framework of assessment and presentation of the MNA's Score Cards.

The Top Performer in Legislation is Dr. Nikhat Shakeel Khan, Sindh, MQM, with a total of 8 Private Member's Bills introduced in the National Assembly during the year.

The Top Performers in Representation are Ms. Naseema Hafeez Panezai, Balochistan, PMAP and Ms. Aliya Kamran, Balochistan, JUI-F, with the highest attendance of 100% in the plenary sessions of the National Assembly.

It should be highlighted here that all top performers of the three categories are women parliamentarians.

This report is based on a series of quantitative methods of data collection. An indigenous framework of assessment was devised by PILDAT, initially consisting of 10 parameters, but was brought down to 7 parameters due to lack of data availability. The 3 missing parameters include: Adjournment Motions, Committee Meetings Attendance and Private Member's Bills passed in the Assembly during the year. The Assembly secretariat was non-responsive to the specific requests made for the data. Detail of methodology and framework of assessment is given in following chapters. The Prime Minister, Speaker and Deputy Speaker of the National Assembly, Federal Ministers, Ministers of State and Leaders of the House and Opposition have not been included in the assessment exercise as their powers and functions differ greatly from that of a regular Member of the National Assembly.

PILDAT extracted information available on the official website of the National Assembly of Pakistan. The information regarding educational qualification of MNAs have been taken from their nomination forms submitted to the Election Commission of Pakistan. This information has been provided only to the extent available. In the case of some MNAs, no information was available regarding educational qualification from these sources and therefore no information on this count could be provided in the scorecards.

The performance and record of the honourable Members of Parliament is a key indicator of the performance of our democracy, democratic process and the democratic institutions. These Score Cards seek to provide the citizens of Pakistan with some critical information in order to empower them to monitor their elected representatives and to identify the prospective future political leadership of Pakistan.

Appendix A carries a list of Constituency-wise MNAs.

Introduction

Parliament is one of the key pillars of democracy and a well-informed public is a prerequisite to any functioning democracy. Pakistan is a Federal State comprising four provinces of Punjab, Sindh, Balochistan, and North West Frontier Province (NWFP); Islamabad as the Federal Capital and the Federally Administered Tribal Areas (FATA).

The Federal Legislature is a bicameral Majlis-e-Shoora (Parliament), composed of the President, the National Assembly and the Senate. The National Assembly has a total membership of 342 of which 272 members are elected on general seats, 60 seats are reserved for women and 10 for non-Muslims. The National Assembly has a constitutional term of 5 years.

The MNAs are among the top elected political leaders of Pakistan. The performance and record of the honourable Members of Parliament is a key indicator of the strength of our democracy, democratic process and the democratic institutions. Developing these scorecards is also an effort to map the future political leadership of the country for the top-most office.

These Score Cards seek to provide the citizens of Pakistan with some critical information in order to empower them to monitor their elected representatives. The Score Cards are unique in that they offer objective, reliable and transparent means to see how the honourable Members of the National Assembly of Pakistan performed in the parliament. Through this dissemination of precise, objective and comprehensive information about the MNAs of Pakistan, PILDAT hopes to contribute to greater transparency and greater democratic accountability in Pakistan.

The performance Score Cards of MNAs focus on three main aspects of the Role of an MNA: Oversight, Legislation and Representation.

The honourable MNAs are able to fulfil their roles and responsibilities as advocates for the interests of their respective constituency, territory, political party and their country by attending the plenary sessions of the National Assembly and participating in the activities and meetings of National Assembly Committees.

Each MNA is obligated to attend the plenary sessions as these provide them with a forum to represent the constituency from where they have been elected, raise critical issues and debate upon the country's challenges. For this purpose, the scorecard highlights the attendance of an MNA in the plenary sessions.

A lot of the work is also being done in the National Assembly Committees especially pertaining to oversight such as review of bills, constitutional amendments, budgetary recommendations and the like. For the purpose of highlighting this work, the Score Card features committee memberships and chairmanships. Data on the Attendance of MNAs in committee meetings was not and is not available on the official website of the assembly. This data was requested by PILDAT from the National Assembly secretariat and was not provided.

Key objectives of assessing the performance of an MNA is to provide citizens of Pakistan with objective and analytical information about their political leaders' performance in order to make informed choices at the time of election, to assess performance of Pakistan's political leadership so as to enhance public focus and critical appraisal of the leaders that will help future leadership development, to assess gaps, if any, in political leadership skills so that contribution may be made towards efforts, if required, of capacity building and ultimately to enhance transparency and accountability in Pakistan.

Methodology of Assessment

This report consisting of performance Score Cards is based on a collection of data through a series of quantitative methods of data collection. Initially, an indigenous framework of assessment was devised by PILDAT consisting of 10 parameters. These 10 parameters were employed in PILDAT's assessment report on Senators that was published in June 2016 against which data was collected for each Senator. It was brought down to 7 parameters in the case of MNAs due to lack of data availability.

Data request forms were drafted and sent to the Secretariat of the National Assembly of Pakistan. However, as data on individual MNA's contribution on all the parameters devised by PILDAT was not being maintained by the National Assembly of Pakistan, PILDAT took on the task of extracting information through various means available on the official website of the assembly. This task could be executed only in the case of 7 parameters. One of the 3 missing parameters is Number of Adjournment Motions presented by each MNA; data against this parameter could not be employed as no Adjournment Motion had been accepted by the Honourable Speaker of the National Assembly for presentation in the House during the year. Data on 2 other parameters was repeatedly requested from the assembly secretariat but in vain. These included Number of Private Member's Bills passed in the Assembly during the year and Attendance of each MNA in the Committee Meetings, which took place during the year.

The information on educational qualification has been taken from nomination forms of MNAs submitted to the Election Commission of Pakistan at the time of the election. These nomination forms were obtained from the ECP through the formal process.

Number of Committee Memberships and Committee Chairmanships of MNAs take into account all categories of Committees (such as Standing, Special, etc.) that were available on the website.

Honourable MNAs who were elected sometime in the middle of the year, such as Mr. Jahangir Khan Tareen of PTI (NA-154 Lodhran-I), their scores have been calculated for the period of their incumbency on pro-rata basis.

At the time of compilation of data (July-August 2016), the composition of the National Assembly during the 3rd parliamentary year as per their website was as follows:

Province / Territory	General	Women	Non-Muslims	Total
Punjab	146	35		181
Sindh	61	14		75
Balochistan	14	3		17
Khyber Pakhtunkhwa	35	8		43
FATA	11			11
Federal Capital	2			2
Total	269	60	10	339

Out of a total of 339 MNA's, 308 MNAs were assessed as the Honourable Prime Minister of Pakistan, Speaker and Deputy Speaker of the National Assembly, Federal Ministers, Ministers of State and Leaders of the House and Opposition were not included in the assessment exercise.

Scoring Mechanism:

After the data was compiled, a scoring mechanism was devised by PILDAT in which averages of each parameter across all the MNAs were calculated. A scale of 1-5 was initially selected to score an MNA on each of the 7 parameters.

The formula for score assignment is as under:

If value for a parameter is higher by 2 Standard Deviations than the average value (across the 308 MNAs), then a score of 5 will be assigned.

If value for a parameter is higher by 1 Standard Deviation than the average value (across the 308 MNAs), then a score of 4 will be assigned.

If value for a parameter is equal to average value (across the 308 MNAs), then a score of 3 will be assigned.

If value for a parameter is lower by 1 Standard Deviation than the average value (across the 308 MNAs), then a score of 2 will be assigned.

If value for a parameter is lower by 2 Standard Deviations than the average value (across the 308 MNAs), then a score of 1 will be assigned.

These scores were generated using the min/max technique and then aggregated to arrive at a final score out of 5.

After each score out of 5 was generated, weightages were assigned to each parameter as it was realised that some parameters carried, in the opinion of PILDAT, greater value in evaluation of the performance of an MNA. For instance, parameter in the 'Legislation' category have been assigned a higher weightage taking in to consideration that legislative activities such as the drafting of a private bill require much greater effort and initiative from the MNAs.

Final weighted percentage scores were then calculated and ranks assigned. The framework of assessment and the weightage of each parameter are presented in a later section of the report.

Based on the final scores and the ranks, PILDAT has categorised the MNAs into the following:

1. MNA of the Year
2. Top 10 Ranks
3. Top 10 Ranks among Women MNAs
4. Top 10 Ranks among MNAs elected on General Seats
5. Top Performer in Legislation
6. Top Performer in Oversight
7. Top Performer in Representation
8. Political Party with the highest percentage of top-performing MNAs

Framework of Assessment of the Performance of an MNA of Pakistan

An indigenous 10-point framework was initially devised by PILDAT to assess the parliamentary performance of an MNA in the National Assembly of Pakistan. This was brought down to 7 parameters due to lack of data availability. Weightage has also been assigned to each parameter of the framework.

The Framework has been divided into three broad pillars: **Oversight, Legislation** and **Representation**. It is presented below:

	Parameters	Weightage
Oversight		
1.	Number of Committees of which the MNA is a member	10%
2.	Number of Committees chaired by the MNA	10%
3.	Number of Resolutions presented by the MNA	10%
4.	Number of Calling Attention Notices presented by the MNA	15%
5.	Number of Questions asked by the MNA	10%
<i>(The above data from serial number 3 to 5 has been collected for both cases i.e. (a) when the MNA is the sole presenter and (b) when the MNA is the co-presenter)</i>		
Legislation		
6.	Number of Private Member Bills introduced by the MNA as a sole mover and as a co-mover	20%
Representation		
7.	Attendance of the MNA in the Plenary Sessions of the National Assembly of Pakistan	25%
	Total	100%
